

# 20/40 MESH

Premium Blasting Abrasive

Product by "JETBLAST INTL EQPT LLC"

Coarse grade abrasive for heavy coatings and tough applications.

Jetblast providing Garnet 20/40 Mesh premium abrasive is our coarsest product, ideal for the removal of heavy marine grade coatings or extreme rust. The superior mineral properties of this quality Garnet enable high productivity rates and an exceptional surface finish.

## KEY PRODUCT FEATURES

- Coarse grade garnet for removal of thick coatings and extreme rust
- Creates high profile to suit high build coating applications
- Increased recyclability, reducing cost and waste

## PRODUCT APPLICATION

- Removal of coatings 750µm+ (20mil)
- High build coating removal
- Removal of extreme rust
- Surface profile requirements of 85µm+
- Offshore, tanks and heavy marine

## PERFORMANCE

- Average profile range: 85-105 µm
- Blasting rates: up to 20m²/hr
- Consumption rate: from 15kg/m²

## UAE SUPPLIER & DISTRIBUTOR:

Contact the Jetblast sales team

## INDUSTRY APPLICATION

- Oil and Gas
- Steel fabrication
- Pipelines
- Marine vessel maintenance
- Construction
- Infrastructure

## THE JETBLAST GARNET DIFFERENCE

Garnet has developed a state-of-the-art mining, processing, and packaging facility at our Lucky Bay Garnet Mine in Western Australia that will deliver high-quality garnet abrasives.

### WORLD CLASS PROCESSING

High purity garnet abrasives with low chlorides and soluble salts that are engineered to perform.

### QUALITY ASSURED

Tested at our on-site laboratory to ensure products exceed international quality standards.

### SUPERIOR PERFORMANCE

Faster cleaning rates and low consumption resulting in higher productivity.

# 80 MESH

Product by "JETBLAST INTL EQPT LLC

High speed, low consumption abrasive, ideal for removing thin coatings and mil scale.

Jetblast Indian Garnet 80 Mesh premium abrasive is a versatile product, ideal for new steel and fabrication. The superior mineral properties of Jetblast Indian Garnet enable high productivity rates and an exceptional surface finish.

## KEY PRODUCT FEATURES

- Engineered particle size distribution for optimal Cutting and cleaning performance
- Ideal for removal of thin coatings and mil scale
- Creates uniform profile to suit majority of coating applications
- Low consumption with increased speed, reducing costs and waste

## PRODUCT APPLICATION

- High speed, low consumption abrasive
- Removal of thin coatings and mil scale
- Removal of light rust
- Provides uniform surface profile for optimum coating adhesion

## PERFORMANCE

- Average profile range: 40-60  $\mu\text{m}$
- Blasting rates: up to 35m<sup>2</sup>/hr
- Consumption rate: from 8 kg/m<sup>2</sup>

## INDUSTRY APPLICATION

- Oil and Gas
- Steel fabrication
- Automotive
- Marine
- Construction
- Infrastructure

# 30/60 MESH

Premium Blasting Abrasive  
Product by "JETBLAST INTL EQPT LLC"

Highly versatile abrasive for medium to thick coatings and general maintenance.

Jetblast providing Garnet 30/60 Mesh premium abrasive is a versatile product for removal of medium to heavy grade coatings or rust. The superior mineral properties of "JETBLAST Provide Indian Garnet enable high productivity rates and an exceptional surface finish.

## KEY PRODUCT FEATURES

- Engineered particle size distribution for optimal cutting and cleaning performance
- Ideal for removal of medium to thick coatings and heavy rust
- Creates uniform profile to suit majority of coating applications
- Increased recyclability, reducing cost and waste

## PRODUCT APPLICATION

- High performing general maintenance abrasive
- Removal of medium to heavy coatings
- Removal of medium to heavy rust
- Provides uniform surface profile for optimum coating adhesion

## PERFORMANCE

- Average profile range: 60-90  $\mu\text{m}$
- Blasting rates: up to 30m<sup>2</sup>/hr
- Consumption rate: from 15kg/m<sup>2</sup>

## INDUSTRY APPLICATION

- Oil and Gas
- Steel fabrication
- Pipelines
- Marine vessel maintenance
- Construction
- Infrastructure

## THE JETBLAST GARNET DIFFERENCE

The India processing, and packaging facility at our Indian facility Garnet Mine in GCC that will deliver high-quality garnet abrasives.

### WORLD CLASS PROCESSING

High purity garnet abrasives with low chlorides and soluble salts that are engineered to perform.

### QUALITY ASSURED

Tested at our on-site laboratory to ensure products exceed international quality standards.

### SUPERIOR PERFORMANCE

Faster cleaning rates and low consumption resulting in higher productivity.
